## LIST OF TABLES

---

<b>TEVELI 2:</b> iTuvatuva ni Lesoni .....	4	<b>TEVELI 5:</b> Mataqali ivocevoce vakatautaki ena wai .....	22
<b>TEVELI 3:</b> Kalasi ni lutu ni haidro.....	21	<b>TEVELI 6:</b> iVolanitavi ni qaravi haidro ni vale vakamacawa....	35
<b>TEVELI 4:</b> Lelevu ni haidro .....	21		

Na lesoni “Noda piko-haidro” na ivakamacala taumada ni haidro. Oti na lesoni qo, o na rawata na veika qo:

- Vakamacalataka na haidro
- Vakamacalataka na ivakarau lelevu ni livaliva (V, I, P & E, AC, DC)
- Kila kece na gacagaca ni haidro
- Vakamacalataka na kedra dui yaga

- Tukuna na dui mataqali haidro
- Kila na iyaya ni vakatovotovo (test equipment) kei na kedra vakayagataki vakamaqosa
- Veivosakitaka se cava so me yavu ni noda lewā ena voli haidro se kena gacagaca
- Tukuna na bibi ni qaravi haidro

## TEVELI 2: iTuvatuva ni Lesoni

Wase	Mataqali Lesoni
1. Taumada – Tou veikilai mada	Vuli kei na iVakadre 1
2. Cava na haidro?	Vuli IVakadre 2 IVakadre 3
3. Yavu ni livaliva	Vuli IVakadre 4
4. Gacagaca ni haidro	Vuli IVakadre 5
5. Mataqali haidro kei na kedra levu	Vuli IVakadre 6
6. Qaqarauni ena haidro	Vuli
7. Voli haidro	Vuli IVakadre 7
8. Qaravi haidro ni vale	Vuli IVakadre 8 IVakadre 9

Na ivolaniivuli qo e yavutaki ena kena Salavata nei Qasenivuli (Trainers Guide). Sa vakarawarawataki na lewenivola ka vakalekalekataki, qai vakabibitaki kina na droini, yaloyalo kei na kena ivakadre me ratou veimaliwai vinaka tikoga kina na lewe ni vuli kei qasenivuli ni toso tiko na vuli. Ke o gadreva

na ikuri ni ivakamacala ni wase cava ga, mo raica na Salavata nei Qasenivuli.

Taba e waqanivola: Yavala na piko-haidro. iVurevure: Powerspouts, Niusiladi.

# IVOLAVOSA

**Ah** - Amp-hour, ivakarau ni dua na amp e kui tiko me dua na aua.

**Beleti (ni qaqarauni)** – mataqali iyaya ni qaqarauni me tarova noda lutu nida cakacaka tiko mai vanua rewa.

**iGu** – Kaukaua e vu mai na iyaubula se kemiki, vb me rawa kina na cina se katakata se yavala kina na misini; na ivakarawa ni cakacaka se yavala.

**iGu haidro** – mataqali ivurevure ni igu tudei, vakayagataki kina na igu ni wai drodro me rawa kina na livaliva.

**iGu katakata** – Na igu katakata na igu e vu mai na yavavala ni molekuli. Na ka e katakata e vu mai na igu katakata.

**iGu kemiki** – iGu maroroi e na isema ni kemiki cokovata, mv atomi se molekuli. Na igu qo e dau sereki ni yaco na vuki vakemiki.

**iGu mekeniki** – igu e vu mai na kena yavala kei na kena itutu.

**Kui (amp)** – totolo ni nodra toso na luveniatomi ena salalivaliva.

**Kui dodonu** – Kui muadua, sega ni veisau pole kena volt.

**Kui livaliva dri** – kui livaliva dau dri qai veisautaka kena gumatua, kena volt e veiveisau pole se kena kui e veiveisau mua.

**Lutu** – Veiyawaki ni rewa ni icurucuru ni wai ina haidro kei na kena icurucuru i tuba mai ra. E vakarautaki vakalevu ena fiti se mita.

**Megawatt** – Dua na milioni na watt.

**Pawa haidro** – Pawa e vu mai na wai e lutu.

**Serau** – igu kaburaki me vodo ena ua se ka matailalai, vb serau livaliva-makeneta mv katakata se ua ni veiilovi (x-ray). Na ua livaliva-makeneta e kau igu e maliwalala. Na cila ni siga e dua na mataqali seraу.

**iVolakabi** – iVola kabi ena dua na ka, volai kina na yacai kena itaukei, kena ivakatawa, koya a bulia, se na itukutuku tale eso.

**Volt (V)** - na bili ni ivurevure ni igu ni salalivaliva, e biliga na luveniatomi jajitaki (kui) ena wa ni livaliva mera lai yaga ena dua na ka, mv vakawaqa cina.

**Watt** – Totolo ni cakacaka ni salalivaliva, dua na joule se cakacaka rawa ena dua na sekodi.

**Wh** - Watt-aea – me yavala na pawa dua na watt ena dua na aua.

## Teveli ni iVakarau:

1000 Watt (W)	1 Kilowatt (kW)
60 sekodi	1 miniti
60 miniti	1 aua
1Wh (Watthour)	1 Watt × 1 aua

# 1

## Taumada – Tou veikilai

---

## IVAKADRE 1

---

Vakamacalataki iko vakalekaleka, qai tukuna vei iratou na lewenivuli me ratou dui vakamacalataki koya – me vaka na cava e dau cakava e veisiga ena gauna qo, cava e via vulica

ena lesoni nikua. Tukuna na lomamu baleta na ivurevure tudei. E sega na isau ni taro donu, na inaki ga ni ivakadre qo meda yalovakacegu qai vakarau meda vulica na lesoni.

# 2

Cava na  
haidro? 

---

## 2.1 Cava na igu?

Na igu na ivakarawa ni cakacaka. Na igu e levu na votukana, e dau vukivuki me yaga vei keda. Qo e so na votukani igu:

- **iGu katakata** – Nanuma toka nomu vakawaqa buka me toka kina na kuroniti. Nida volekata na buka waqa, eda vakila na kena igu.

### YALOYALO 1: Bue na wai ena igu katakata<sup>1</sup>

**The burning wood gives out heat energy and heats the pot. This heat helps to boil the water. The heat energy gets transferred to water. We all know how hot boiled water is.**

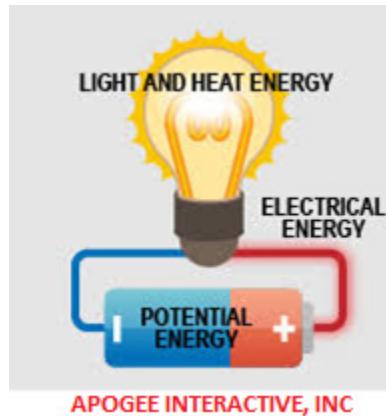

- **iGu mekeniki** – qo na igu ni idini ni boto e cowiri kina na ivocevoce me toso kina na boto. Se na igu ni idini ni lori e vakadewai ina taya me toso kina.

### YALOYALO 2: iGu mekeniki ni ivocevoce<sup>2</sup>

- **iGu kemiki** – na kemiki e tawa ena loma ni bateri, e maroroi kina na igu me rogo kina na retio, jajitaki na talevoni, se waqa na cina ena bogi.
- **iGu livaliva** – qo na igu e drodrova na waya me yavala kina noda iyaya livaliva.

### YALOYALO 3: iGu livaliva<sup>3</sup>

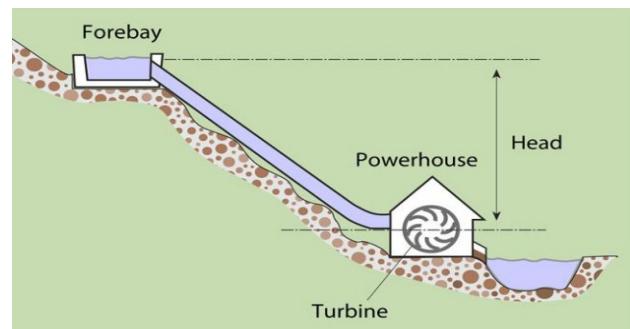

## 2.2 Cava na igu haidro?

Na igu haidro – na ivurevure tudei, rua na kena mataqali:

**Wai baiti** – baniwai se ivakaso e maroroi kina na wai drodro, qai sereki me yavalata na ivocevoce ni livaliva (turbine).

**Wai drodro** – vakadrodroi na wai ina paipo se salaniwai me tini ena ivocevoce ni livaliva.

### YALOYALO 4: Droini matailelevu ni haidro<sup>4</sup>

## 2.3 Cava na piko-haidro?

Na piko-haidro na haidro lailai, viavia vaka na sola tugalala ni igu e rawa kina e maroroi ena bateri qai vakayagataki ni gadrevi. Na piko e droinitaki ena yaloyalo 5.

## IVAKADRE 2

---

1. O nanuma ni vakalailaitaki na vakadukaduka ena baniwai ni haidro?

---

---

---

2. Mataqali igu cava so e rawa mai na haidro?

---

---

---

3. Na baniwai ni haidro e rawa ni vakacacana na veikabula?

---

---

---

## IVAKADRE 3

---

1. Veivosakitaka vakalasi se o sa raica oti na haidro (me vaka ena yaloyalo 4), Dou veiwaseitaka.

---

---

---

# 3

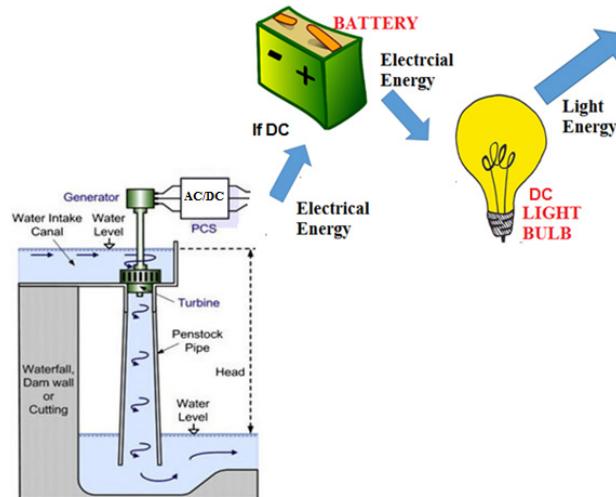

Yavu ni  
livaliva

---

### 3.1 iGu livaliva

Na igu livaliva e dua na votukani igu. Na yaloyalo e ra e laurai kina na kena veisau.

**YALOYALO 7:** Veisau na igu haidro me igu livaliva qai tini ena rarama ni cina<sup>7</sup>

**SAFETY TIP:** Energy of any form whether electrical energy from a generator or from a battery is very dangerous and can cause harm if we are not careful. Always follow safety rules when working with energy.

### 3.2 iGu ena bateri

Na igu ena bateri e maroroi ena kemiki. Na mataqali bateri jajitaki kune wasoma na 'lead acid', vaka na bateri ni lori. Na 'lithium-ion' vaka na kena ena talevoni se tenei (laptop) sa tekiu taurivaki tiko, ca ga ni saulevu.

**YALOYALO 8:** Bateri jajitaki 'lead acid'<sup>8</sup>

### 3.3 Pawa

Na ivakamacala rawarawa ni pawa, na igu vakayagataki ena gauna yalataki. E vakarautaki ena Watt (W). 1000 na Watt e dua na Kilowatt (kW).

**YALOYALO 9:** Matanicina 4W<sup>9</sup>

### 3.4 Volt kei na kui (current)

Na volt na kaukaua ni livaliva, se na kena bi e vakavuna me muria na luveniatomi (electrons) na waya (salanilivaliva), e via vakā na bi ni wai ena paipo.

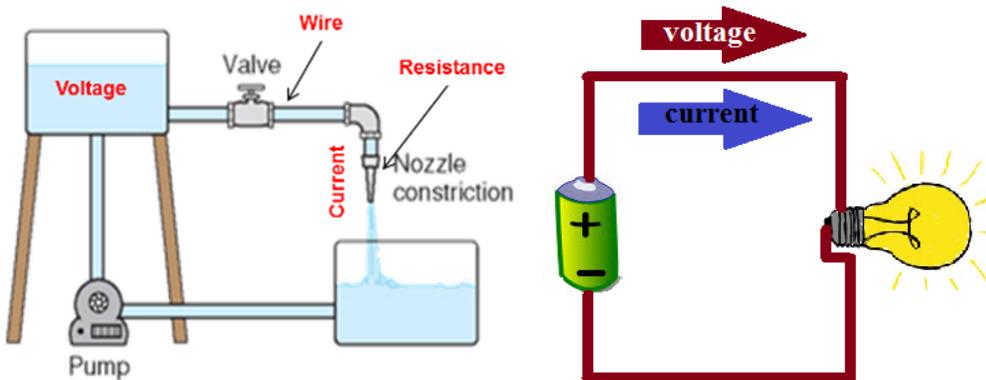

Na kui (current) nodra kui vata tiko na luveniatomi qo. Me vaka ni dau lutu na wai ena idre ni vuravura (gravity), e kui na livaliva ena waya ena idre se bili ni volt.

**YALOYALO 10:** Rau wili ruarua na volt kei na kui ena pawa – na volt e vaka na bi ni wai ena taqe<sup>10</sup>

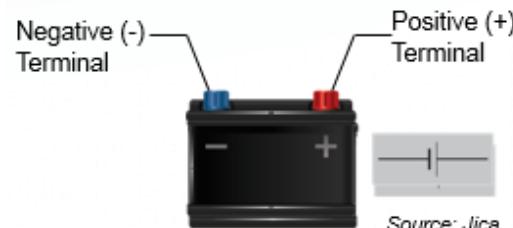

Na ivakarau ni volt na volt, na ivakarau ni kui na Ampere se Amp. Eda dau via kila se vica na volt kei na kui e drodrova na wa. E rawa ni kainaki ni volt e vaka na titobu ni wai, ia na kui na kena kui tiko. Na wai lalai vovodea madaga eda rawa ni luvu kina, ke kaukaua na kui. E vaka kina na livaliva, veitalia ni lailai na volt – ke kaukaua na kui, eda rawa ni mate kina.

### 3.5 Livaliva dri, livaliva dodonu

Na kui mai na bateri e vakatokai me livaliva dodonu (direct current, DC), baleta ni dua tuga. Na livaliva dodonu e kui tuga mai uluniwai (positive) i gusuniwai (negative).

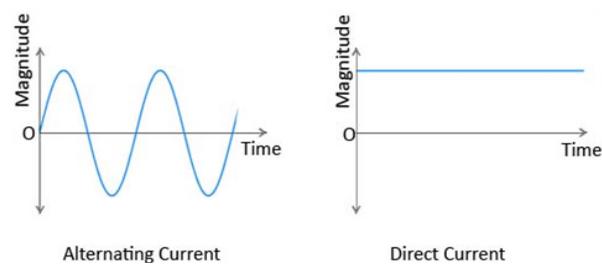

**Qaqarauni:** Na kui kei na volt levu e rawa nida mavoa kina se mani mate ke drodrova na yagoda. Kua na tara na waya wale, se mo cakacaka ena livaliva bula. Dau qaqarauni matua, se me dua e vakaivola kina me cakava.

**YALOYALO 11:** Pole ni bateri<sup>11</sup>

Source: JICA

**YALOYALO 12:** Erau duidui na livaliva dri (AC) kei na kena dodonu (DC) ni duidui na kena drodro ni toso na gauna<sup>12</sup>

Qo na sabolo ni ivolakabi ni dip (frisa) livaliva dri (AC):

**YALOYALO 13:** Sabolo ni ivolakabi ni dip (frisa)<sup>13</sup>

Gacagaca ni  
piko-haidro

---

Na haidro e vica tiko na kena gacagaca. E rawa ni tugalala se yavala vata kei na sola. Era laurai na gacagaca ni haidro kei na kedra yaga ena teveli e ra.

Na ivakadre e ra me ubi tiko ni vakamacalataki na gacagaca yadudua.

## IVAKADRE 5

iVocevoce sema kei na jenereita<sup>19</sup>

Na ivocevoce (turbine) na gacagaca e vukica na igu ni wai me igu mekeniki (cocowiriwiri), sema kei na jenereita me qaqi livaliva.

Paipo taku (PVC)<sup>20</sup>

E rawa ni vakayagataki na paipo taku (PVC) me sala ni wai mai na ivakaso ina ivocevoce.

Bateri<sup>21</sup>

Na bateri na iyaya e maroroi kina na igu livaliva ena igu kemiki, qai vukici kina na igu ya me livaliva dodonu (DC). Na bateri kune vakalevu e rawa kina e 12V na livaliva dodonu (DC).

iDoladola<sup>22</sup>

Na itavi levu ni idoladola (charge controller) me lewā na kena jajitaki na bateri mai na jenereita. E tarova kena jajitaki sivia kei na soli livaliva vakasivia, e lewā tale beka ga na volt ni bateri me kua ni lailai se sivia. Ke sega qo, e rawa ni guce kina na bateri se lekaleka na kena bula, e rawa talega ni rerevaki vei keda.

Mataqali haidro  
& kedra levu —

## 5.1 Kalasi ni haidro

Na haidro e rawa ni kalasitaki me rewira, veimama, se rewaicake. Qo e baleta na rewa ni vanua e lutu mai kina na wai.

## TEVELI 3: Kalasi ni lutu ni haidro

Kalasi	Lutu
Rewira	1-30m
Veimama	30-100m
Rewaicake	100m lako cake

## 5.2 Lelevu ni haidro

E 6 na lelevu ni haidro.

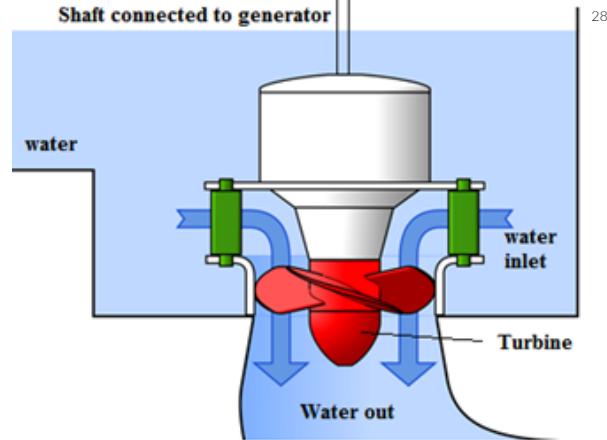

## TEVELI 4: Lelevu ni haidro

Naba	Yacana	Gumatua (Livaliva e rawa)
1	Piko-haidro	Sega ni yacova na 5kW
2	Maikro-haidro (MCH)	5kW-100kW
3	Mini-haidro (MNH)	100kW – 1 MW
4	Haidro lailai	1MW – 10MW
5	Haidro veimama	10MW – 100MW
6	Haidro levu	Sivia na 100MW

## 5.3 Piko-haidro

Na piko-haidro na haidro lailai sara (sega ni yacova na 5 kW). E sega ni gadrevi kina me levu na wai se levu kena lutu. E so e laurai ena yaloyalo 19 e ra.

### YALOYALO 19: Mataqali piko-haidro

## 5.4 Maikro-Haidro

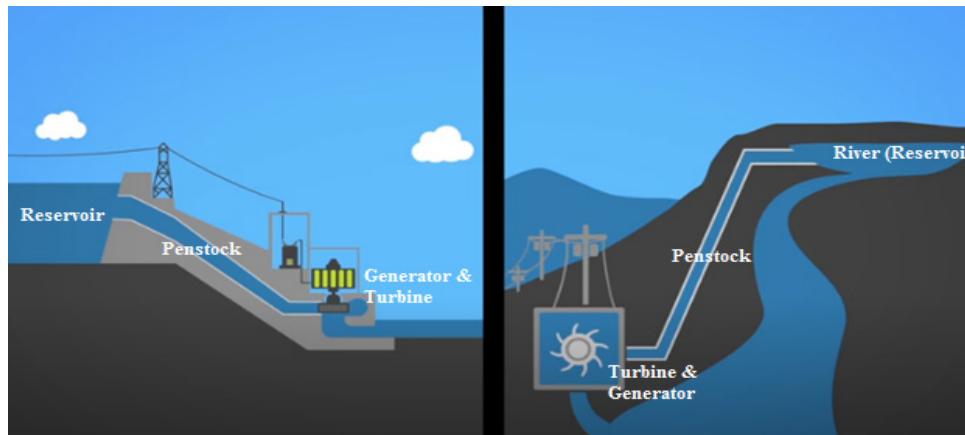

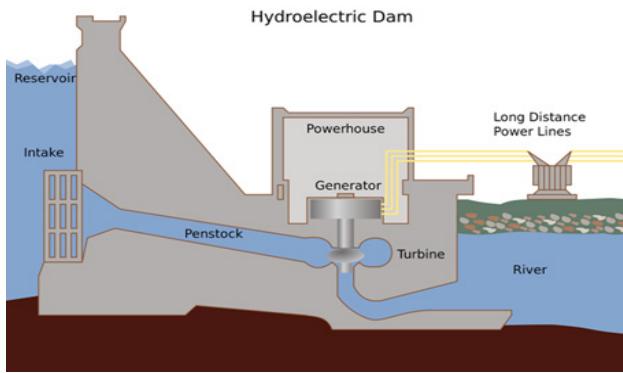

Na maikro-haidro (5-100 kW) e via vaka na piko, kedrau duidui ga na levu ni kena ivocevoce kei na jenereita.

27 IVurevure: Baylor University, Yavutaki ena Wikipedia, "Pico Hydro", [https://en.wikipedia.org/wiki/Pico\\_hydro](https://en.wikipedia.org/wiki/Pico_hydro)

28 IVurevure: Mechanical E- Notes, <https://mechanicalenotes.com/wp-content/uploads/2019/08/kaplan-turbine-diagram-1000x550.png>, accessed 16 June 2021.

**YALOYALO 20:** Maikro-haidro<sup>29</sup>**5.5 Mini-haidro****YALOYALO 21:** Mini-Haidro<sup>30</sup>**5.6 Mini-haidro me yacova na ka lelevu**

E tautauvata na icakacula ni mini me yacova na haidro lelevu. La e rawa ni wase rua: ena imatau na wai drodro (run-off river) ena imawi na wai baiti (hydro dam).

**YALOYALO 22:** Mawi – Haidro wai baiti & imatau – wai drodro<sup>31</sup>**YALOYALO 23:** Sabolo ni haidro levu<sup>32</sup>**5.7 Mataqali ivocevoce**

Na ivocevoce e vukica na igu ena wai ina igu yavala (kinetic energy) cocowiriwiri (rotation energy). E vakatau na mataqali ivocevoce ena lutu ni wai kei na kena levu.

29 SUNECO Hydro Turbines, June 2021, <https://www.micro-hydro-power.com/>

30 IVurevure: Pinterest.com, "Mini hydroelectric Pelton Turbine, <https://www.pinterest.com/pin/431360470538243882/>

32 IVurevure: Wikimedia Commons, Hydroelectric Plant, September 2015, [https://upload.wikimedia.org/wikipedia/commons/thumb/5/57/Hydroelectric\\_dam.svg/2000px-Hydroelectric\\_dam.svg.png](https://upload.wikimedia.org/wikipedia/commons/thumb/5/57/Hydroelectric_dam.svg/2000px-Hydroelectric_dam.svg.png)

## TEVELI 5: Mataqali ivocevoce vakatautaki ena wai

Mataqali ivocevoce	Lutu ni wai (m)	Drodro ni wai (lita/sek)
Propeller	1 - 5	14 - 55
Turgo	2 - 30	8 - 16
Pelton	3 - 130	0.5 - 8

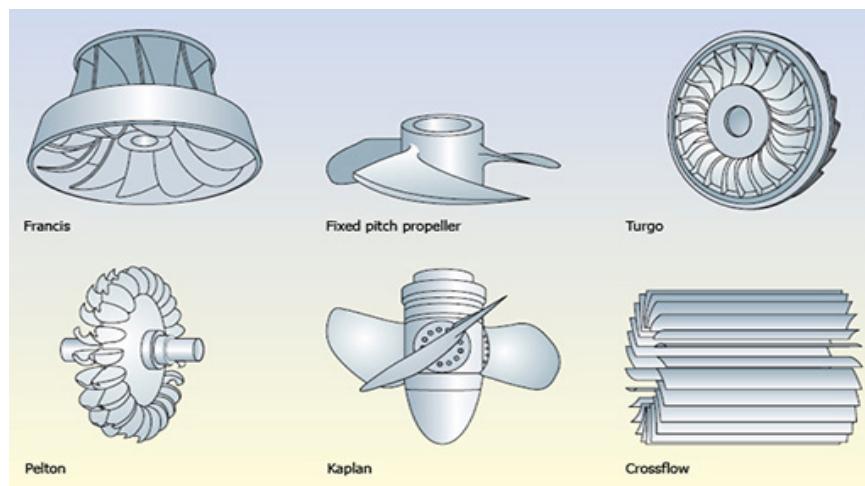

## YALOYALO 24: Mataqali Ivocevoce<sup>33</sup>

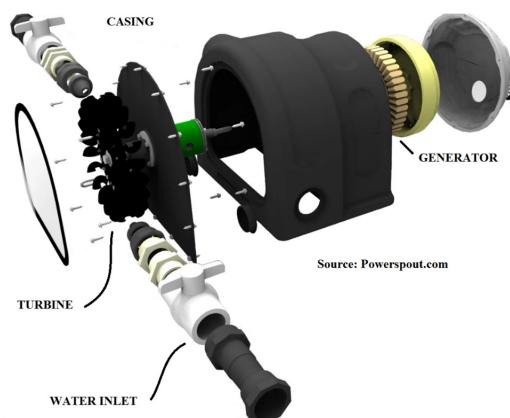

- The Pelton is a turbine used for a site that has a high head and low flow for a given output power and rotational speed  
- Turgo is used at sites that have a head slightly lower than that of a Pelton, and a slightly higher flow than the Pelton for the same power output

- The cross-flow turbine is a low-speed machine that is well suited for locations with a low head but high flow

-These operate at very low heads and high flows

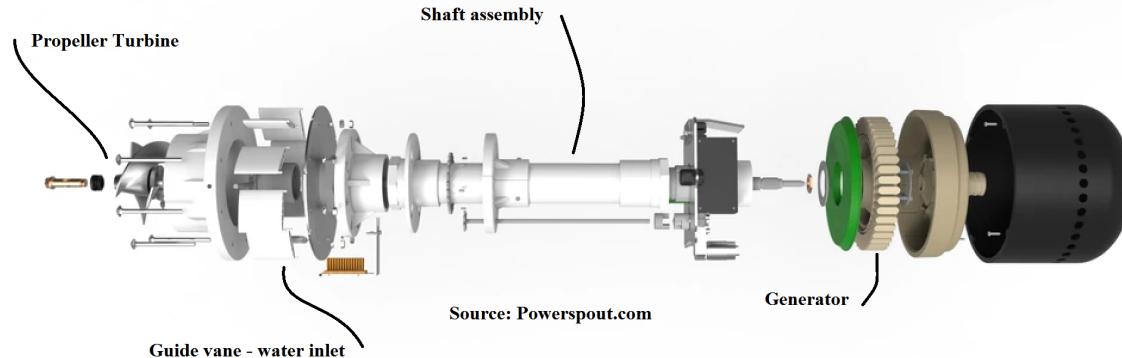

## YALOYALO 25: iVocevoce Pelton kei na jenereita (laurai ni serek)<sup>34</sup>

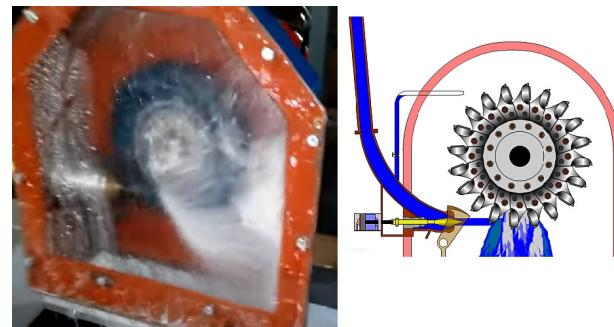

33 IVurevure: Public Research Institute, June 2021, <http://www.publicresearchinstitute.org/Pages/hydroturbines/images/TypesOfHydroTurbines.jpg>

34 IVurevure: [Powerspout.com](http://Powerspout.com), accessed 16 June 2021.

**YALOYALO 26:** iVocevoce Propeller & Jenereita (laurai ni serek)<sup>34</sup>**5.7.1 Lauta na wai na ivocevoce**

Ena haidro, na wai e tiko na kena igu maroroi (potential energy) ni tiko mai cake, qai veisau me igu mekeniki na lauta na wai na ivocevoce qai cowiri kina, me vaka e laurai e ra ena yaloyalo 27.

**YALOYALO 27:** Na wai e vakacowiritaka na ivocevoce Pelton<sup>35</sup>

Voli piko-  
haidro

---

## 7.1 Voli haidro ni vale

Na haidro na ka verevorea, mo kila mada se vica na levu ni ka o vinakata.

## 7.2 Me tarogi vei koya e volitaka

- E yalataki (warranty)?

### YALOYALO 33: iVolakabi ni yalayala (warranty)<sup>41</sup>

- Mataqali ivocevoce cava? Vica na pawa ni jenereita? E livaliva dodonu (DC) se dri (AC)? Ke livaliva dri, taroga se wili kina na misini ni volt (automatic voltage regulator).

### YALOYALO 34: Mataqali ivocevoce<sup>42</sup>

### YALOYALO 35: iDusidusi Raraba<sup>43</sup>

#### GENERAL CHARACTERISTICS

Certifications:	2006/42/CE (Machinery Directive); 2014/35/UE (LVD); 2014/30/UE (EMC)
Power range:	3 – 750 kW
Head range:	30-550m
Flow range:	2-400 l/s
Number of nozzles:	6
Flow regulation:	on/off valves by electrical drive for flow regulation
Generator:	asynchronous squirrel-cage motors, high efficiency
Generator class insulation/temp. rise:	F/B
Bearings of generator:	lifetime lubricated / with grease-gun
Temperature sensor generator windings:	N°3 PTC in series
Frequency:	50-60 Hz
Voltage:	230/400V - 277/480V, three-phase
Protection grade:	IP23 (protection grade of generator IP55)
Rotational speed sensor:	proximity 1 signal/revolution
The mechanical components in contact with water are in stainless steel

Qaravi haidro  
ni vale

---

Na haidro kece e vinaka me qaravi wasoma me cici vakavinaka kina ka bula balavu.

## 8.1 Cava so na vu ni leqa ni haidro?

E levu tu na vu ni leqa ni haidro. E so na gauna eda raica ni sa viavia leqa tiko, so tale na gauna da kurabui sa mate tu.

### 8.1.1 Qaravi ivocevoce

- Raica na vulo (screen) ena icurucuru ni wai me galala na ivocevoce
- Raica de soqova na ivocevoce na soqosoqo

#### YALOYALO 41: Soqosoqo<sup>49</sup>

- Raica me galala kece na qaraniwai (drain) e volekata na iivocevoce
- Qarauna me qirisitaki kece na berigi (bearing) qai sega ni yavu

### 8.1.2 Qaravi jenereita

- Me dau savasavā qai galala na kena salanicagi. Vakayagataka na iri livaliva (blower) me uvuca tani na kuvu ni loma ni jenereita
- Qarauna de torova na jenereita na wai
- Kua ni sereka na jenereita me tahiraki na kuvu
- Dikeva na sucuna (terminal)

#### YALOYALO 42: iSema e sucuna<sup>50</sup>

- Ena yaloyalo e cake, e dua na sucuna sa katakata sivia qai roka tani; ni veisau vakalailai mada na rokana, cakava. De na sega ni yaga me qaqacotaki na nati. De na yaga me musu tani na tikina ca qai sema vou tale.
- Raica na berigi (bearing) – bokoca na jenereita se sereka mai na ivocevoce qai wirica e ligamu se rogo. Ke rogo vaka e yacayaca tiko, me veisau.
- Wilika na ivoladusidusi ni jenereita qai muria na idusidusi ni kena qaravi.

**Qaqarauni: KUA NI TARA NA SUCU NI JENEREITA SE GACAGACA YAVALA CAVA GA NI CICI TIKO**

### 8.1.3 Qaravi paipo kei na salaniwai

- Me dau dikevi na paipo (penstock) de turu qai botani
- Vagalalatata kece na salaniwai

#### YALOYALO 43: Qarauna ni sega ni kaca na baivatu<sup>51</sup>

- Raica me drodro vinaka na wai ina ivocevoce. Kauta tani na kena itatao.
- Dikeva matua ni tau oti na uca
- Dau wereci.

## 8.1.4 Qaravi bateri

Na qaravi bateri e duidui na kena icakacaka, vakatau se mataqali bateri cava kei na idusidusi ni kabani a bulia, me vaka:

- Dikevi ka samaki na vata ni bateri kei na kena gacagaca kece.
- Vakarautaki na volt ni bateri ke dua nomu mita liga, se o raica ga ena idoladola (charge controller).
- E so na idoladola e vakamatana (display screen), e so na kena lalai era vakacina led me laurai kina na igu ni bateri.

**YALOYALO 44:** Na cina led e dusimaka na igu ni bateri<sup>52</sup>

**YALOYALO 45:** iDoladola e laurai kina na volt ni bateri<sup>53</sup>

- Na qaravi bateri me dau oka kina noda dikeva na sucuna de veveka se luluqa.
- Na barasi sitila me qua kina na sucuna de veveka mai. Vaqaniliga rava tuga.
- Dikeva na waya de via taluva se mavoa. Ni mavoa na waya, vaqara na kenadau me veivuke.

**YALOYALO 46:** Qua sucu ni bateri veveka<sup>54</sup>

**Qaqarauni:** E daumaka mo vakamatailoilo ni tataqomaki kei na qaniliga rava ni o qaravi bateri. Nio qarava na bateri luvu (vakawai), mo vakaisuai, de sikavi iko na waikama. Me dua na kava ivakatubu dola rawa kei na taku wai, ke mani tasova na waikama me sova na ivakatubu i loma ni wai, ulia, qai sui sara kina na waikama me kua ni vakamai keda.

Na volt lailai (12V) e sega ni rerevaki, ia na kui levu e rawa ni kati keda. Qarauna me kua ni lutu na spana e dela ni bateri, de qai kama na ligamu, se kacobote na bateri. Qarauna!

E yaga me dua na ivolanitavi me nomu idusidusi ni o dau qarava nomu haidro. Ke o kunea na leqa – tukutuku sara vei daunilivaliva. E dua na sabolo ni ivolanitavi sa tabaki e ra, e rawa ni o maroroya me nomu.

**IVAKADRE 8: IVOLANITAVI NI QARAVI HAIDRO**

Vola e dua na ivola ni itavi me dau qaravi me bula balavu kina nomu piko. Vakasamataka mada se me vakayacori sara vakacava.

---

---

---

## IVAKADRE 9

Na inaki ni ivakadre qo mera vakila na lewenikoro nodra itavi bibi na marama ena vakatulewa kei na qaravi ni iyaya vovou kei na kedra vakayagataki. Wilika na italanoa qo, qai sauma na taro.

### Nodra vakavu veisau na marama

O Sala kei na watina o Mario kei iratou na luvedrau e le tolu ratou tiko mai Afio, mai Malaita. Segu ni vakalivaliva na koro. O Mario e turaganikoro qai dauqoli, veimataka lailai ni bera ni cabe na siga sa tu mai waitui me rawata na ika lelevu me qai kau ina tabana ni qoli e tiko kina na vale duadua ni waicevata e yanuyanu. E so na siga e dau kauta mai vale na ika lalai me kedadrou. E tolu na luvedratou, o Lilly sa yabaki 9, o Timoci yabaki 10 kei Salote yabaki 13, nodratou koronivuli e rauta ni 4 km kena yawa mai vale, ni taubaletaki e viavia dua na aua. Dua nodratou iteitei levu e vale. Levu na kumala, uvi, kaveti, kei na tomata me kedadrou e veisiga. Rau tiko talega e vale na itubutubu i Mario, rau sa qase toka. E turaga dau cakacaka o Mario qai levu na veimataqali cakacaka me qarava, mv botani na boto, kau waicevata, usa pasidia i veiyanuyanu ena yakavi. Oosooso talega o Sala na qaravi rau na itubutubu i Mario, sasamaki, qaravi iratou na gone, kei na cakacaka vakoro.

Dua na yakavi e vuli leseni tiko ena cina karasini na luvedrau yabaki 13 o Salote. Sa curuoso na iboi ni karasini ni tolu vakadua na cina karasini e waqa tiko na bogi ya. O Mario se bera ni suka mai na vale a lai gunu yaqona kina. Tagicaka vakalevu o Lili, goneyalewa yabaki 9, na iboi ni karasini ni lako vakaca sua. Rau sa veivalataka na cina o Timoci kei Salote. Sa qai tomika na cina o Lilly, veicicyaka vaqitoqito e loma ni vale ni sa via qito. Nodratou veicemuri gona e loma ni vale qai lutu vakasauri e ligana na cina karasini, tau ena ibe qai kama sara. Kaila o Salote ena kere veivuke, ratou qai cici mai o iratou e yasa ni vale me ratou bokoboko, leqa ga ni levu na ivola nei Salote a kama. Sa qai dau rere o Lilly na vakacina karasini. Toso tiko na yakavi sa qai tukuna o Sala vei Mario nona vakasama.

**Mario:** Kua ni leqa – sega ni dua e kama, Se bera ni dromu na macawa au na volia nona ivola vovou. Cava o leqataka?

**Sala:** Au kila sa kena gauna me sa kua na cina karasini e nodatou vale.

**Mario:** A? O lialia – me datou qai cina cava?

**Sala:** Io, au sa rogoca ni rawa na livaliva mai na wai drodro. Na wai e tiko ga qo, o iko ni o turaganikoro mo tukuna vei ira na lewenikoro se ra via vakacina livaliva. Na koro i tinaqu e vakapiko-haidro, sa toso vinaka sara nodra vuli na gone, ni rawarawa na vuli leseni ena cina ramase.

**Mario:** Mudou, sa levu ga na ka o vinakata. O kemuni na marama oni dau.. (takoso o Sala)

**Sala:** Cava “o kemuni na marama”?

**Mario:** Mmm.

**Sala:** O keimami ga na marama me keimami vakavu veisau, baleta ni tarai keimami na dredre ni bua ni sega na livaliva. Au dau yadra ni se bogi meu vakawaqaca na cina karasini boi ca, qai vakasaqa. Au dau qarauna matua me maroroi na vo ni ika kei na bulagi, me kua ni ca datou qai tauvimate kina. Au raica me ratou vuli leseni na gone ena rama ca ni cina. Au dau maroroi ilavo me ivoli ni karasini.

**Mario:** Io, e donu vei au me datou vakalivaliva. Au vinakata na firisa me maroroi kina na ika. E tukuna o Jone ni a voli piko, se bera ni macawa dua sa yavala tiko. Vakacava ke qai ca? Dua tale, e saulevu talega na haidro. Vakacava ke ra sega ni duavata na lewenikoro?

**Sala:** Isalei. Tou tovolea madaga. Veivosaki kei ira na lewenikoro, ke donu vei ira, meda maroroya vakalailai e veimacawa na ilavo ni ika, qai Siganisucu sa na rauta me voli kina na haidro. Me tou kerea na tabana ni livaliva me ratou veivuke. Kua ni leqataka kena qaravi, daru kere veivuke ga vei iratou na sa vakahaidro tu, au kila ena veivuke vakalevu talega na yasana. Au rawa ni lako ina dua na kena vuli.

**Mario.** Wananavu qori Sala. Au sa marau dina ni daru sa duavata kina, qai noqu itavi na raici iratou na gone kei rau noqu qase nio na lai vuli piko. Au na vosa vei ira na lewenikoro nimataka.

Oti na drama.

Vukei Sala me sauma na taro e rua qo:

- Cava so me ra qarauna o Sala, Mario kei ira na lewenikoro nira voli piko?
- Cava so me ratou cavaka o Sala kei iratou na yalewa me bua balavu kina na piko?

# 9

Fikataki levu  
ni haidro

---

Eda sa vulica oti ni iyaya livaliva kece, se matanicina, firisa, TV se cava, e tiko na levu ni pawa (watt) e vakayagataka. Nida soqona kece qo, eda bau kila kina se vica taucoko na pawa e vinakati.

Na piko e ka lailai tok, e sega ni rawa ni cici kina e levu ni iyaya, koya gona e ka bibi meda kila na vanua e yala kina.

Na levu ni pawa e rawa ni solia na piko e vakatau ena veika qo.

1. Lutu – me vaka da sa kila, na yawa ni lutu ni wai, vakarautaki ena mita (m)
2. Drodro – qo na levu ni wai e rawa ni drodrova na ivocevoce, vakarautaki ena mita kiubiki ena veisekodi ( $m^3/s$ ). E dua na mita kiubiki na wai ena veisekodi e tautauvata kei na 1,000 na lita na wai ena veisekodi.
3. idre ni vuravura (gravity) – Qo e dua tuga, e  $9.81 m/s$  (mita / sekodi)
4. Mana ni ivocevoce kei na iyaya livaliva. Ena viavia donu me 50% na kena mana taucoko (0.50)

E rawa nida vakayagataka na fika qo meda fikataka vakacaca kina na levu ni pawa ena rawa ena haidro, o keda ga na lewenikoro ke dua beka e veivuke. Me taurivaki na isosoqoni e ra:

$$5. \text{ Pawa (kW)} = \text{Lutu (m)} \times \text{Drodro (m}^3/\text{s}) \times \text{idre ni vuravura(m/s)} \times \text{Mana}$$

Na lutu e rawa ni kilai ena sovea, me dua ga na ivakaru balavu (tape measure) kei na levolo.

Na drodro ni wai ena vakatau ena vula kei na siga. E vinaka meda vakarautaka wasoma ena duidui vula, me qai macala kina na drodro lailai duadua, kei na pawa lailai duadua e rawa mai kina.

E vica tiko na iwalewale ni vakarautaki drodro ni wai, wili kina noda vakayagataka na vokete kei na paipo, tolona/totolo, kei na drodro ni masima. Qo e sega ni lewe ni nodatou vuli qo, ia e yaga meda bau kila tu na lewenikoro, qai rawa ni veivuke kina na tabana ni livaliva se tabana ni veikabula.

#### iVakadre:

Dua na vanua ni haidro e 2m na kena lutu, kena drodro e  $5l/s$  (vaka me tawa na vokete ena veisekodi), vica na pawa ena rawa ke vakayagataki kece na wai?

#### iSau:

Na drodro e vakarautaki ena lita/sekodi, vinakati me veisau me mita kiubiki/sekodi, me wase  $1000: 5/1000 = 0.005 m^3/s$

$$\text{Pawa (kW)} = \text{Lutu (2m)} \times \text{Drodro (0.005 m}^3/\text{s}) \times 9.81 \text{ m/s} \times 0.5$$

$$\text{Pawa (Kilowatt)} = 0.04905 \text{ kW}$$

$$\text{Pawa (Watt)} = 0.04905 \text{ kW} \times 1000 = 49 \text{ Watts}$$

Taro: E vica na matanicina ya 5-watt e rawa ni waqa kina?

$$\text{iSaur} = 49 / 5 = 9.8, 9 \text{ matanicina}$$

Ke vakaruataki na lutu me 4 mita, cava na gumatua ni haidro ena watt?

$$\text{Pawa (kW)} = \text{Lutu (4m)} \times \text{Drodro (0.005 m}^3/\text{s}) \times 9.81 \text{ m/s} \times 0.5$$

$$\text{Pawa (Kilowatt)} = 0.0981 \text{ kW}$$

$$\text{Pawa (Watt)} = 0.0981 \text{ kW} \times 1000 = 98 \text{ Watt}$$

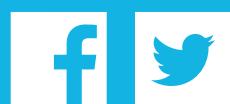

E ka bibi meda kila ni vinakati na drodro levu qai dei kei na lutu levu me bau dua kina na haidro levu.
